Colonial Electric Supply Announces TelTek Sales Acquisition

King of Prussia, Pennsylvania - Colonial Electric Supply is pleased to announce the expansion of their telecommunication and utility division, by acquiring the assets of TelTek Sales, Inc. Colonial Electric Supply is one of the largest independent; family owned and operated electrical distributors in the Mid Atlantic region, serving PA, NJ, DE, MD and NY.

TelTek Sales, Inc will begin operating out of Colonial Electric's King of Prussia, Customer Service Center, under the Outside Plant Division beginning December 1, 2011. This acquisition, which includes both the TelTek Staff and inventory, will broaden Colonial's offering, providing customers with quality telecommunication, utility and outside plant products along with field specific knowledge.

"Colonial is eager to begin offering customers outside plant solutions" Colonial Electric Supply's President, Steve Bellwoar commented, "It was a natural progression for us, as many of our current customers participate in this type of work every day. Now, with the addition of TelTek Sales, combined with our logistics and service model, we can service not just our current customer base efficiently, but also the TelTek customer base and those customers searching for a better Outside Plant specialist."

Howard Sukonick, TelTek Founder, and his sales staff also have joined the Colonial team. Sukonick comes with over 30 years experience in the Outside Plant and Fiber Optic industry. Using his experience and knowledge of the industry, Sukonick will lead the expansion of the Telecom, Utility and Outside Plant division at Colonial.

Colonial Electric's success is built around employees who provide quality customer service. Branch locations allow Colonial employees to personally serve customers quickly and conveniently with the support of over \$20 million in inventory at its customer service center. In addition, Colonial continues to provide customer-focused programs through 24-hour service, online account management, real time inventory status, and training programs.

Headquartered in King of Prussia, Pennsylvania, Colonial Electric Supply is a family-owned and operated business. This second-generation company has a customer service center located in King of Prussia along

with over twenty branch locations across eastern Pennsylvania, New Jersey, Delaware, Maryland and New York. Visit the company website at www.coloniaelectric.com for more information.
